## **Chapter 12 - Lesson 3**

### **Controlling Internal Parasites**

#### **Activity**

1. Observe cattle in a pasture, horses in stalls, and dogs in a backyard where preventive measures are practiced to control internal parasites. With assistance of a veterinarian, perform examinations of selected fecal samples and health status of the animals.
  - a. List your observed preventive measures.
  - b. Record results of the fecal examinations.
  - c. Evaluate the effectiveness of the preventive measures based on the results of the parasite tests and the animal's health status.
