

Table of Contents

Foreword	vii
Preface	ix
Contributors	xi
Acknowledgements	xiii

1 *One Health*

Goals & Objectives	1
1. Animals, Health, & Society: A One Health Approach	5
2. Frontiers in One Health	9
3. The Human, Wildlife, & Livestock Interface: An Evolving Concern	15
4. Maintaining Healthy Communities: A Population Approach	23
5. Global Policy Issues for Transboundary Livestock Diseases	25
6. A Veterinary Assistant's Role in an Animal Health Emergency	31

2 *Public Health*

Goals & Objectives	35
1. Epidemiology & Animal Diseases	39
2. Catastrophic Diseases Around the World	47
3. Surveillance of Animal Populations	53
4. Global Disease Detectives	59
5. Diagnostic Tests: Tools for Screening & Surveillance	67

3 *Global Food Safety, Security, & Defense*

Goals & Objectives	75
1. Trends & Challenges for Global Food Security, Food Safety, & Food Defense	79
2. The Food Production Chain: How Food Gets Contaminated	83
3. Surveillance of Foodborne Pathogens in People	87
4. Foodborne Outbreak Investigation: A Case Study	91
5. Trade Policy & Food Security	103

4 *Biomedical Research*

Goals & Objectives	105
1. Research: Basic or Translational	109
2. The Use of Animals in Biomedical Research: Improving Human & Animal Health	113
3. Ethics & Animal Welfare	119
4. Host-Pathogen Interactions	123
5. Countermeasure Development: Biologicals	129

Goals & Objectives	133
1. Environmental Degradation & Sustainability	137
2. Wildlife Disease Dynamics	139
3. Global Warming: The Resurgence of Infectious Diseases	145
4. Environmental Concerns & Infectious Diseases	149
