

VETERINARY SCIENCE CERTIFICATE PROGRAM

Camp Offerings 2024

Student Growth

Program Description

The Texas A&M AgriLife Extension Service Veterinary Science Certificate Program (VSCP) is a nationally recognized program that provides students with the knowledge and skills necessary to become a veterinary assistant. VSCP also provides a sound platform for students who wish to pursue an associate, undergraduate, or graduate degree in veterinary science. VSCP is available for 4-H programs, public schools, private schools, home schools, and independent study to students across the nation.

• **Veterinary Science Day Camps** are offered to provide students with knowledge and skills of veterinary topics focusing on wildlife conservation medicine, equine medicine, bovine medicine, poultry medicine, and/or production practices.

• **Veterinary Science Overnight Camps** are offered to provide students with three days of hands-on animal handling education and experience on a college campus. Students stay in dorms, eat in the campus cafeteria, and receive a campus tour.

Providing Opportunity

VSCP is committed to expanding our programming across the state for students in the areas of animal science and veterinary medicine.
